FEES AND EXPENSES

INVESTMENT MANAGEMENT FEE AND PERFORMANCE FEE

The Investment Manager shall be paid an annual investment management fee as follows:

- Class A1 Shares – 1.10% of the Net Asset Value of the Sub-Fund denominated in EUR;
- Class A2 Shares – 1.10% of the Net Asset Value of the Sub-Fund denominated in USD;
- Class A3 Shares – 1.60% of the Net Asset Value of the Sub-Fund denominated in EUR ; and
- Class L1 Shares – 1.25% of the Net Asset Value of the Sub-Fund denominated in EUR .

on each Valuation Day and payable to the Investment Manager quarterly in arrears.

In addition to the Investment Management Fee, the Investment Manager is also entitled to receive a performance fee based on the performance of the Sub-Fund (the “Performance Fee”) for each Class of Shares. The Performance Fee will be calculated and accrued for by the Sub-Fund on each Valuation Day and will be equivalent to 20% of the ‘Net New Appreciation’ (as hereinafter defined) if any, achieved by the Sub-Fund for any outperformance over the hurdle rate being the Euribor Three Months + 25 basis points.

The Performance Fee shall be payable quarterly on the amount by which the ‘Net New Appreciation’ of the relevant Share Class of the Sub-Fund outperforms one or both hurdle rates over any given quarter. The Sub-Fund’s performance in any given calendar quarter is compared to the performance of the hurdle rate in the same quarter to establish the level of outperformance.

For the purpose of calculating the Performance Fee, the ‘**Net New Appreciation**’ shall mean the difference, if any, between the ratio of (i) the NAV per Share Class as at the end of the Valuation Day (prior to deducting any accrual for performance fees) and the NAV per Share Class of the most recent quarter for which a Performance Fee was paid or payable to the Investment Manager; and (ii) one (1).

For the purpose of calculating the first Performance Fee payable to the Investment Manager, the NAV per Share Class of the most recent quarter shall mean the Initial Offer Price per Investor Share.

If at any time the NAV per Share Class (prior to deducting any accrual for performance fees) is below the High Water Mark, no performance fee will be charged until the NAV per Share Class (prior to deducting any accrual for performance fees) has reached or exceeded the High Water Mark as of the prior performance fee calculation date.

The ‘**High Water Mark**’ shall mean the NAV per Share Class as of the end of the most recent quarter for which a performance fee was paid or payable to the Investment Manager, or if no performance fee has been paid since the inception of the Sub-Fund, then the initial offering price per Share Class.

For the Investment Manager to be entitled to the performance fees at any point in time the NAV per Share Class at the end of the Valuation Day (prior to deducting any accrual for performance fees) must be above the Initial Offer Price of the same Share Class.

This fee will be paid to the Investment Manager quarterly in arrears within fifteen days from the end of the respective quarter to which it relates. At the end of each such Accounting Period, a reconciliation will be made of all calculations of the Performance Fee made on each Valuation Day included in such Accounting Period, before payment of the same. Notwithstanding such reconciliation, if on any Valuation Day there results a Performance Fee to be accrued as aforesaid, this shall be deemed to have been earned by the Investment Manager (notwithstanding that it is payable at a later stage), and will

accordingly be retained by and remain payable to the Investment Manager regardless of the Sub-Fund's future results in successive periods (including successive periods during the same Accounting Period).

In order to ensure equal treatment of holders of Shares in the Sub-Fund irrespective of the timing of their investment in or redemption from the relative Sub-Fund, and in view of the fact that the performance fee is accrued for, the full impact of the performance fee will be spread over the performance period at each Dealing Day. However, if it transpires that no performance fee becomes payable as at the end of the performance period then there would ultimately be no impact on the NAV of the Sub-Fund.

The remuneration, fees and disbursements due to the Sub-Investment Manager, investment advisors, experts and/or consultants (if any) appointed directly by the Investment Manager to assist the Investment Manager, shall be paid out of the said investment management fee and/or the performance fee, unless otherwise agreed with the Company.

The fees and commissions payable to authorised agents, distributors and other intermediaries and referees or client introducers appointed by the Investment Manager to promote the Fund and/or to sell or assist in selling the Fund Shares as aforesaid under the part titled 'Investment Manager', will be paid out of the Management Fee.

Upon prior written investors request, the Investment Manager will provide more detailed information about any fees which may be paid to agents, distributors or other intermediaries or referees or client introducers

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

The Investment Manager may waive or allocate any of its investment management fee or performance fee to investors.

Worked Example

The following is a worked example showing the Performance Fee calculation:

	Initial Offer Price	Quarter I	Quarter II	Quarter III	Quarter IV
Euribor 3M+25bps		0.125% (0.25%+0.25%)/4	0.125% (0.25%+0.25%)/4	0.125% (0.25%+0.25%)/4	0.125% (0.25%+0.25%)/4
Fund NAV	1000	1045	1027	1065	1150
Fund Net New Appreciation		4.50% (1045/1000-1)	-1.72% (1027/1045-1)	1.91% (1065/1045-1)	7.98% (1150/1065-1)
Performance fee (bps)		Performance Fee	No Performance Fee	Performance Fee	Performance Fee
		0.87% (4.50%- 0.125%)*20%		0.36% (1.91%- 0.125%)*20%	1.57% (7.98%- 0.125%)*20%

RISK WARNINGS

In evaluating the potential and suitability of an investment in the Sub-Fund, careful consideration should be given by prospective investors to the Risk Factors set out in the Offering Memorandum as well as to the following Risk Factors.

It is recommended that prospective investors consult their own advisors on legal, tax and financial issues that are relevant for their specific situation, as the information herein should be regarded as general information.

Investment in the Sub-Fund should be regarded as a medium to long term investment. There can be no guarantee that the Investment Objective of the Sub-Fund set out herein will be achieved.

Investors' money shall be invested in financial instruments and assets selected by the Investment Manager. These financial instruments and assets shall be subject to the evolution and fluctuations of the market. The risk profile of the Sub-Fund is suitable for investors with a medium to a long term investment horizon.

Like any potential investment, potential investors should be aware that the value of the Sub-Fund's assets is subject to the fluctuations of the international equity and bond markets and that it may vary substantially. Investors receive no guarantee that they will get back the invested capital.

The risk factors described below are not exhaustive. It is the responsibility of each investor to analyse the risk associated with such an investment and to form their own opinion independent of the Investment Manager of the Sub-Fund, where necessary seeking the opinion of advisors specialised in such matters in order to ensure that this investment is appropriate in relation to their financial situation.

Since investment decisions are the full discretion of the Investment Manager and are based on expectations regarding the performance of different markets, there is a risk that the Sub-Fund might not be invested in the best-performing markets at all times.

INTEREST RATE RISK AND CREDIT RISK

Given that the Sub-Fund can invest in debt instruments and money market instruments, up to 100% of the Sub-Fund's assets may be exposed to interest rate and credit risk. When interest rates decline the market value of fixed-income securities tends to increase, and conversely. A rise in interest rates would have for consequences a depreciation of the Sub-Fund's investments. The credit risk refers to the risk that the issuer of fixed-income securities held by the Sub-fund may default on its obligation and the Sub-Fund will not recover its investment.

RISKS ASSOCIATED WITH INVESTMENT IN EMERGING MARKETS

Investments in emerging markets may be more volatile than investments made in mature markets. Some markets may have relatively unstable governments, economies based on a handful of companies and financial markets limited to trading just a small number of securities. Most emerging markets do not have a developed regulatory supervision system in place, and information published is less reliable than that of developed countries. There are greater risks of expropriation, nationalisation and political and economic instability in emerging markets than in developed markets.

RISK RELATED TO EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES

The Sub-Fund may use financial derivative instruments for efficient portfolio management purposes which entails the establishment of an overlay strategy that defines the objective, associated costs and benefits in addition to the risks of the said strategy. There are certain trade-offs which are to be considered when using financial derivative instruments for the purpose of efficient portfolio management in that derivative instruments provide means to manage risk and achieve financial objectives however they may convert a first-order risk (e.g. interest rate risk) into other second-order risks (e.g. counterparty risks). Inaccurate analysis of these risks and limitations may adversely affect the performance of the Sub-Fund. Furthermore certain potential conflicts of interest may arise in using efficient portfolio management techniques.

RISK RELATED TO DISCRETIONARY MANGEMENT

Discretionary management choices are based on expectations regarding the performance of certain securities. There is therefore a risk that the Sub-fund may not be invested in the best-performing stocks at all times.

FOREIGN EXCHANGE RISK

Some eligible stocks may be quoted in a currency other than the EUR and the Sub-Fund may hold cash positions in any currency in which investments can be made. Investors are therefore reminded that up to 100% of the Sub-fund's assets may be exposed to foreign exchange risk.

LIQUIDITY RISK

The investments may have limited liquidity as the Sub-fund can invest part or all of its assets in small-cap companies. The number of securities bought or sold may be lower than the orders sent to the market, due to the low levels of supply and/or demand for these securities in the market.

RISKS OF LOSS OF CAPITAL

The Sub-Fund offers no guarantee or capital protection. The initial investment might not be recovered in full.

SUB-INVESTMENT GRADE BONDS RISK

Given that the Sub-Fund can invests up to 30% of its net assets in sub-investment grade bonds, whilst these are generally higher yielding bonds which tend to boost yield, there is an increased risk of default on repayment which may affect the capital value of the Sub-fund

RISK OF INVESTMENTS IN NON-RELATED COLLECTIVE INVESTMENT SCHEMES

The Sub-Fund may invest in other collective investment schemes. Investors must be aware that the applicable investment management fees may be in addition to fees paid by collective investment schemes to their sub-managers, resulting in double payment of such fees. In case of investment in another collective investment schemes, the total management fees of the Sub-Funds and of the other collective investment scheme will be at an annual rate of maximum 3.5% of the Sub-Fund's Net asset value at the end of each calendar month, before deduction or accrual of the performance fee. Investors should also be aware that if the Sub-Fund invests in other collective investment schemes which are also managed by the same Investment Manager of the Company, there will be no duplication of investment management fees and thus will be waived accordingly.
