AMAGIS DYNAMIC ALLOCATION TOTAL RETURN FUND, A SUB-FUND OF AMA UCITS SICAV PLC (SV 355)

ISIN	ISSUER NAME	ISSUE DESCRIPTION
MT7000014023	AMA UCITS SICAV plc	AMAGIS Dynamic Allocation Total Return Fund Class B1 EUR Shares
MT7000014031	AMA UCITS SICAV plc	AMAGIS Dynamic Allocation Total Return Fund Class B2 EUR Shares
MT7000015665	AMA UCITS SICAV plc	AMAGIS Dynamic Allocation Total Return Fund Class L1 EUR Shares

The Sub-Fund is managed by Amagis Capital Management Ltd (C 63765), a company of the Amagis Capital group, licensed by the MFSA as UCITS Management Company and AIFM. The sustainability statement of the manager is available at <https://www.amagiscapital.com/regulatory-disclosure.html>. Further information on sustainability are set out in the offering supplement of the Sub-Fund.

OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund's objective is to provide positive absolute returns and medium to long term capital appreciation on a risk adjusted basis. The Sub-Fund does not actively promote Sustainability Factors and does not maximize portfolio alignment with Sustainability Factors; however it may remain exposed to Sustainability Risks.

The Sub-Fund shall seek to achieve its objective by investing in a portfolio of diverse asset classes including, but not limited to, equity securities and debt securities, both direct and indirect (which will be achieved through the use of Financial Derivative Instruments ('FDIs')) without any restriction on the markets and/or industries to be targeted. The Sub-Fund seeks to be invested for a portion not above 100% of the Sub Fund's net assets in equities (and equity related instruments) of listed companies operating principally in Europe and United States. The Sub-Fund may also gain exposure to companies operating in global emerging markets. In addition, the Sub-Fund aims to invest in long and short positions in large, mid and small capitalisation companies where available liquidity is consistent with risk management controls and underlying UCITS liquidity requirements.

The Sub-Fund may also invest, up to 100% of its net assets, in global debt securities issued by governments, corporates, agencies and

supranational entities. Such securities might be fixed or floating rate notes, senior or subordinated, structured notes, convertible bonds and any other debt securities. Such debt securities shall be rated at least BBB- by Standard & Poor's Corporation or Baa3 by Moody's Investor Services Incorporated. Any debt securities rated less than 'Investment grade' or not rated at all by rating agencies (e.g. Standard & Poor's, Moody's, Fitch) may not exceed 40% of the Sub-Fund's net assets. In addition, the Sub-Fund may also, on an ancillary basis, invest singularly up to 10% of its net assets in units of other UCITS, exchange traded funds and/or other collective investment schemes. Furthermore, the Sub-Fund may also invest in permissible instruments offering an exposure to commodities indices which such exposure may not exceed 30% of the Sub-Fund's net assets.

The Sub-Fund intends to re-invest any income realised and will provide on demand daily liquidity to investors. The Investment Manager does not consider the adverse impacts of investment decisions on Sustainability Factors. Such sustainability risk may have a material negative impact on the financial return of the investment strategy of the Sub-Fund.

RISK AND REWARD PROFILE

LOWER RISK

HIGHER RISK

← TYPICALLY LOWER REWARDS → TYPICALLY HIGHER REWARDS

The Sub-Fund falls within risk category four (4) out of seven (7). The indicator measures the risk of the Sub-Fund, this means that basing on the investment objectives and policies of the Sub-Fund set out above, the purchase of units in the Sub-Fund is connected to **medium** of such fluctuations. Please note that Category 1 does not mean a risk free investment. Historical data, such as is used in calculating the indicator, may not be a reliable indication of the future risk profile of the UCITS, as the category might change in the future. The following risks are materially relevant to the UCITS but are not adequately captured by the synthetic indicator and may cause additional loss (A more detailed description of risk factors that apply to this Sub-Fund is set out in the relevant Offering Supplement):

- **Counterparty risk:** A counterpart may fail paying the proceeds related to the sale of securities by the Sub-Fund or may fail delivering the securities purchased by the Sub-Fund.
- **Event risk:** Unforeseeable events such as devaluations, political events, etc.
- **Liquidity risk:** Securities in the Sub-Fund may be sold below their valuation due to insufficient liquidity in the market.
- **Operational risk:** Failures or delays in operational processes may negatively affect the Sub-Fund.
- **Credit risk:** The default of the issuer of a debt instrument held by the Sub-Fund.
- **Interest Rate risk:** Changes to the interest rates shall inversely affect the value of the debt instrument.
- **Sustainability Risk:** These are only integrated into the investment decision making and risk monitoring if representing a potential or actual material risks and/or opportunities to maximizing the long-term risk-adjusted returns. *This Risk and Reward section is not a guarantee that it will remain unchanged.*
