INVESTMENT OBJECTIVES, POLICIES AND RESTRICTIONS

INVESTMENT OBJECTIVE

The Sub-Fund's objective is to provide positive absolute returns and medium to long term capital appreciation on a risk adjusted basis.

The Sub-Fund does not have as its objective sustainable investment nor it does purport to promote environmental or social characteristics and/or sustainable investments.

There is no assurance that the Sub-Fund will achieve its Investment Objective.

INVESTMENT POLICY

The Sub-Fund shall seek to achieve its objective by investing in a portfolio of diverse asset classes including, but not limited to, equity securities and debt securities, both direct and indirect (which will be achieved through the use of Financial Derivative Instruments ('FDIs')) without any restriction on the markets and/ or industries to be targeted. The Investment Manager shall construct such portfolio of assets which allocation between the different asset classes, through use of a combination of investment strategies, to seek to achieve absolute positive returns and minimise the impact of market volatility.

The Sub-Fund seeks to be invested for a portion not above 100% of the Sub Fund's Net Assets in equities (and equity related instruments) of listed companies operating principally in Europe and United States. The Sub-Fund may also gain exposure to companies operating in global emerging markets. In addition, the Sub-Fund aims to invest in long and short positions in large, mid and small capitalisation companies where available liquidity is consistent with risk management controls and underlying liquidity requirements. Positions in other equity related instruments for the purpose of hedging or managing the overall risk of the portfolio, or to enhance returns may also be undertaken by the Investment Manager on behalf of the Sub-Fund.

The equity positions and the equity related instruments mentioned above shall include, without limitation, shares and preference shares.

The Sub-Fund may also invest, up to 100% of its net assets, in global debt securities issued by governments, corporates, agencies and supranational entities. Such securities might be fixed or floating rate notes, senior or subordinated, structured notes, convertible bonds and any other debt securities. Such debt securities shall be rated at least BBB- by Standard & Poor's Corporation or Baa3 by Moody's Investor Services Incorporated. Any debt securities rated less than 'Investment grade' or not rated at all by rating agencies (e.g. Standard & Poor's, Moody's, Fitch) may not exceed 40% of the Sub-Fund's net assets.

The Sub-Fund may also, on an ancillary basis, invest up to 10% of its net assets in units of a single collective investment scheme ('CIS'), including other UCITS schemes, exchange traded funds and/ or other collective investment schemes whose investment objectives and policies are consistent with the investment objectives and policies of the Sub-Fund, provided that:

- a) these CISs are authorised under laws which provide that they are subject to supervision considered by the MFSA to that laid down in Community law and that cooperation between authorities is sufficiently ensures;

- b) the level of protection for unit-holders in these CISs is equivalent to that provided for unit-holders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of the Investment Services Rules issued by the MFSA;
- c) the business of these CIS undertakings is reported in half-yearly and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period; and
- d) no more than 10% of the assets of the UCITS or of the other CISs whose acquisition is contemplated can, according to their fund rules or instruments of incorporation, be invested in aggregate in units of other UCITS or other collective investment undertakings.

The Sub-Fund may use FDIs in relation to the asset classes outlined above, such as, but not limited to, futures, forwards, foreign exchange contracts (including spot and forward contracts) and options for efficient portfolio management or investment purposes. Any direct and indirect operational costs/ fees associated with the efficient portfolio management techniques shall not include any hidden revenues and that any revenues generated from such techniques shall be returned to the Sub-Fund. A list of the FDI markets is set out in Appendix II of the Offering Memorandum. The FDIs may be exchange-traded or over the counter.

The Sub-Fund may also invest in permissible instruments offering an exposure to commodities indices which such exposure may not exceed in aggregate 30% of the Sub-Fund's net assets. The exposure to such indices will be obtained through FDIs.

Investment Process – The Investment Manager aims to construct a portfolio of diversified assets displaying low correlation amongst the different assets in order to minimise the impact of market volatility while generating the expected target returns. In achieving this, the Investment Manager shall adopt the following investment process:

Idea Generation: The Investment Manager shall carry out extensive research and risk analysis on possible target companies to identify any investment opportunities across global asset classes, which will then develop the investment strategy. As part of such assessment, the Investment Manager shall conduct fundamental economic analysis, asset class reviews, valuation modelling and/or quantitative modelling.

Selection: The Investment Manager shall then review and approve the investment strategy taking into consideration the expectations of positive returns within the constraints of acceptable risk levels; whether the strategy shall enhance the Sub-Fund's risk profile; and assess the ability to liquidate any significant positions.

Implementation: Upon selecting the appropriate investment strategy, the Investment Manager shall seek to implement such strategy in an efficient and effective manner through the use of a variety of asset classes while making active asset allocation decisions and ensures that the portfolio meets the risk management constraints.

The Sub-Fund's global exposure and market risk will be assessed and monitored on the basis of the Standard Commitment Approach. The Investment Manager anticipates using leverage in the Sub-Fund however the limit for such total exposure will be of 200% of the Net Asset Value of the Sub-Fund.

Sub-Investment Manager: The Investment Manager appointed a Sub-investment Manager to carry out or procure to carry out some of the Investment Management functions. The Sub-Investment Manager is Abraxas Capital Management Ltd, authorized and regulated by the Financial Conduct Authority, FRN 219017.

SUSTAINABILITY RELATED DISCLOSURES

Definition: For the purpose of this Offering Supplement, “Sustainability Risk” means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment and “Sustainability Factors” mean environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Adverse sustainability indicators, as these are defined under Regulation (EU) 2019/2088 may include, amongst others, climate and other environment related indicators (such as greenhouse gas emissions, waste, water consumption), social and employee, human rights and anti-corruption and anti-bribery related matters.

Regulatory Background: Pursuant to EU Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector, the Sub-Fund is required to disclose the manner in which Sustainability Risks are integrated into the investment decision and the results of the assessment of the likely impacts of Sustainability Risks on the returns of this Fund.

The Sub-Fund does not actively promote Sustainability Factors and does not maximize portfolio alignment with Sustainability Factors; however it may remain exposed to Sustainability Risks.

Sustainability Risks: Such Sustainability Risks are only integrated into the investment decision making and risk monitoring to the extent that they represent a potential or actual material risks and/or opportunities to maximizing the long-term risk-adjusted returns.

The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region and asset class. In general, where a sustainability risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value.

The Investment Manager notes that an indirect impact may arise due to the lack of ESG investors’ appetite toward target companies, in the event that such firms are exposed to sustainability risk and are not able to address such risks. In such instance, the Investment Manager shall seek to correct its exposure and eventually dispose the aforesaid investment in order to seek to attain its investment objectives.

Basing on the Sub-Fund diversified portfolio, the Investment Manager believes that the Sub-Fund may be exposed to a broad range of Sustainability Risks, which will differ from investment to investment. Some markets and sectors will have greater exposure to Sustainability Risks than others. For instance, some sectors or individual companies may be subject to greater regulatory or public pressure than other sectors and, thus, greater risk. However, it is not anticipated that any single Sustainability Risk will drive a material negative financial impact on the value of the Sub-Fund.

Adverse impacts of investment decisions on Sustainability Factors: The Investment Manager does not consider the adverse impacts of investment decisions on Sustainability Factors for the following reasons.

The aforesaid decision not to take into account such adverse impacts depend on the underlying design of the investment strategy of the Sub-Fund, which has not been developed by means taking into account such elements, nor is intended to be directly impacted by assessments to be made on such elements: this entails that, for example, a lack of relevant disclosures from potential target investments or that no sufficient data available is deemed of satisfactory quality to allow the Investment Manager to adequately assess the potential adverse impact of the investment decision on Sustainability Factors.

EU Taxonomy: Notwithstanding the above, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, which are determined by the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, as amended from time to time, as these are not factored in as part of the investment process of the Sub-Fund.

INVESTMENT RESTRICTIONS

In pursuing the Investment Objective and Investment Policy, the Sub-Fund will be subject to the Investment, Borrowing and Leverage Restrictions set out in the Section of the Offering Memorandum entitled ‘Investment Objectives, Policies and Restrictions’.

The Directors may, from time to time, impose such further investment restrictions as shall be compatible with or in the interests of the holders of the Investor Shares in the Sub-Fund.

CHANGES TO THE INVESTMENT OBJECTIVES OF THE COMPANY OR ITS SUB-FUNDS SHALL REQUIRE THE CONSENT IN WRITING OF THE HOLDERS OF THREE-FOURTHS (3/4) OF THE ISSUED INVESTOR SHARES OF THE RELEVANT SUB-FUND, OR THE SANCTION OF AN EXTRAORDINARY RESOLUTION PASSES AT A SEPARATE GENERAL MEETING OF THE HOLDER OF THE INVESTOR SHARES OF SUCH SUB-FUND IN TERMS OF THE ARTICLES OF ASSOCIATION OF THE COMPANY. THE CHANGE IN THE INVESTMENT OBJECTIVES WILL ONLY BECOME EFFECTIVE AFTER ALL REDEMPTION REQUESTS RECEIVED DURING SUCH NOTICE PERIOD HAVE BEEN SATISFIED. ANY APPLICABLE REDEMPTION FEES SHALL BE WAIVED ACCORDINGLY.

CHANGES TO THE INVESTMENT POLICIES AND RESTRICTIONS OF THE COMPANY OR ITS SUB-FUNDS SHALL BE NOTIFIED TO INVESTORS FIVE WORKING DAYS IN ADVANCE OF THE CHANGE.

THE OFFERING

The Offering Price will be available from the Administrator. The relevant share prices shall be published on a daily basis on Bloomberg and the Italian Stock Exchange.

The purchase or selling price of each Listed Investor Share shall be based on the NAV of Sub-Fund as at that Trading Day, which shall be calculated and disclosed on the following Business Day.

ACCUMULATION SHARES

The Company will issue accumulation Investor Shares in respect of the Sub-Fund and accordingly no dividends will be paid. The entire net income, if any, of a relevant Sub-Fund, after the deduction of expenses, will be accumulated within the relevant Sub-Fund and reflected in the price of the Investor Shares of the relevant Sub-Fund.

DURATION OF A SUB-FUND

The duration of the Sub-Fund and the classes are indefinite.

SWITCHING OF SHARES

Holders of Listed Investor Shares in any Sub-Fund are not permitted to switch to other Listed Investor Shares or Investor Shares within the Sub-Fund or within other Sub-Funds of the Company. Holders of Investor Shares are not permitted to switch to Listed Investor Shares within the Sub-Fund or within other Sub-Funds of the Company.

FEES AND EXPENSES

INVESTMENT MANAGEMENT FEE AND PERFORMANCE FEE

The Investment Manager shall be paid an annual investment management fee as follows:-

- Class B1 Shares – 1.45% of the Net Asset Value of the Sub-Fund denominated in EUR;
- Class B2 Shares – 1.85% of the Net Asset Value of the Sub-Fund denominated in EUR; and
- Class L1 Shares – 1.45% of the Net Asset Value of the Sub-Fund denominated in EUR,

on each Valuation Day and payable to the Investment Manager quarterly in arrears.

In addition to the Investment Management Fee, the Investment Manager is also entitled to receive a performance fee based on the performance of the Sub-Fund (the “Performance Fee”) for each Class of Shares. The Performance Fee will be calculated and accrued for by the Sub-Fund on each Valuation Day and will be equivalent to the sum of:

- 10% of the ‘Net New Appreciation’ (as hereinafter defined) if any, achieved by the Sub-Fund for any outperformance over the annual hurdle rate being 100 basis points; **and**
- 20% of the ‘Net New Appreciation’ if any, achieved by the Sub-Fund for any outperformance over the annual hurdle rate being 300 basis points.

The Performance Fee shall be payable quarterly on the amount by which the ‘Net New Appreciation’ of the relevant Share Class of the Sub-Fund outperforms one or both hurdle rates over any given quarter. The Sub-Fund’s performance on a High Water Mark basis, in any given calendar quarter is compared to the performance of the hurdle rate in the same quarter to establish the level of outperformance. For the purpose of calculating the Performance Fee, the ‘**Net New Appreciation**’ shall mean the difference, if any, between (i) the ratio of the NAV per Share Class as at the end of the Valuation Day (prior to deducting any accrual for performance fees) and the HWM; and (ii) one (1). For the purpose of calculating the first Performance Fee payable to the Investment Manager, the NAV per Share Class of the most recent quarter shall mean the Initial Offer Price per Investor Share.

If at any time the NAV per Share Class (prior to deducting any accrual for performance fees) is below the High Water Mark, no performance fee will be charged until the NAV per Share Class (prior to deducting any accrual for performance fees) has reached or exceeded the High Water Mark as of the prior performance fee calculation date.

For the sake of clarity, in the event that the High Water Mark is reached or exceeded within the quarter but the NAV reduces in the subsequent periods, such that the NAV per Share Class is below the High Water Mark at the end of the calendar quarter no performance fee will be charged for the calendar quarter.

The ‘**High Water Mark**’ shall mean the NAV per Share Class as of the end of the most recent quarter for which a performance fee was paid or payable to the Investment Manager, or if no performance fee has been paid since the inception of the Sub-Fund, then the initial offering price per Share Class.

This fee will be paid to the Investment Manager quarterly in arrears within fifteen days from the end of the respective quarter to which it relates. At the end of each such Accounting Period, a reconciliation will be made of all calculations of the Performance Fee made on each Valuation Day included in such Accounting Period, before payment of the same. Notwithstanding such reconciliation, if on any Valuation Day there results a Performance Fee to be accrued as aforesaid, this shall be deemed to have been earned by the Investment Manager.

OFFERING SUPPLEMENT – AMAGIS DYNAMIC ALLOCATION TOTAL RETURN FUND

In order to ensure equal treatment of holders of Shares in the Sub-Fund irrespective of the timing of their investment in or redemption from the relative Sub-Fund, and in view of the fact that the performance fee is accrued for, the full impact of the performance fee will be spread over the performance period at each Dealing Day. However, if it transpires that no performance fee becomes payable as at the end of the performance period then there would ultimately be no impact on the NAV of the Sub-Fund.

The remuneration, fees and disbursements due to the Sub-Investment Manager, investment advisors, experts and/or consultants (if any) appointed directly by the Investment Manager to assist the Investment Manager, shall be paid out of the said investment management fee and/or the performance fee, unless otherwise agreed with the Company.

The fees and commissions payable to authorised agents, distributors and other intermediaries and referees or client introducers appointed by the Investment Manager to promote the Fund and/or to sell or assist in selling the Fund Shares as aforesaid under the part titled ‘Investment Manager’, will be paid out of the Management Fee.

Upon prior written investors request, the Investment Manager will provide more detailed information about any fees which may be paid to agents, distributors or other intermediaries or referees or client introducers. The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses. The Investment Manager may waive or allocate any of its investment management fee or performance fee to investors.

RISK WARNINGS

In evaluating the potential and suitability of an investment in the Sub-Fund, careful consideration should be given by prospective investors to the Risk Factors set out in the Offering Memorandum as well as to the following Risk Factors.

It is recommended that prospective investors consult their own advisors on legal, tax and financial issues that are relevant for their specific situation, as the information herein should be regarded as general information.

Investment in the Sub-Fund should be regarded as a medium to long term investment. There can be no guarantee that the Investment Objective of the Sub-Fund set out herein will be achieved.

Investors' money shall be invested in financial instruments and assets selected by the Investment Manager. These financial instruments and assets shall be subject to the evolution and fluctuations of the market. The risk profile of the Sub-Fund is suitable for investors with a medium to a long term investment horizon.

Like any potential investment, potential investors should be aware that the value of the Sub-Fund's assets is subject to the fluctuations of the international equity and bond markets and that it may vary substantially. Investors receive no guarantee that they will get back the invested capital.

The risk factors described below are not exhaustive. It is the responsibility of each investor to analyse the risk associated with such an investment and to form their own opinion independent of the Investment Manager of the Sub-Fund, where necessary seeking the opinion of advisors specialised in such matters in order to ensure that this investment is appropriate in relation to their financial situation.

Since investment decisions are at the full discretion of the Investment Manager and are based on expectations regarding the performance of different markets, there is a risk that the Sub-Fund might not be invested in the best-performing markets at all times.

BUSINESS RISK

There can be no assurance that the Sub-Fund will achieve its investment objective. The investment results of the Sub-Fund will be reliant upon the success of the Investment Manager. The Company competes with other funds and market participants for investment opportunities. The number of such funds and market participants and the scale of the assets managed by such entities may increase. Such competitors maybe substantially larger and have considerably greater financial, technical and marketing resources than are available to the Company or they may also have a lower cost of capital and access to funding sources that are not available to the Company, which may create competitive disadvantages with respect to investment opportunities. The net effect of these developments may be to reduce the opportunities available for the Investment Manager to generate returns and/or reduce the quantum of these returns.

EQUITY SECURITIES

Equity securities represent ownership interests in a company or corporation, and include common stock, preferred stock and warrants and other rights to acquire such instruments. Investment in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. The value of convertible equity securities is also affected by prevailing interest rates, the credit quality of the issuer and any call provisions. In addition, actual and perceived accounting irregularities may cause dramatic price declines in the equity securities of companies reporting such irregularities or

which are the subject of rumours of accounting irregularities. These factors may adversely affect the Sub-Fund and, consequently, the Net Asset Value per Share.

PRICE VOLATILITY AND MARKET RISK

Price volatility refers to the fact that the values of the underlying assets of the Sub-Funds will fluctuate in response to the activities of specific issuers and/or general market conditions referred to also as market risk. As a result of such market risk, the price of Investor Shares of the Sub-Funds can go down as well as up and investors may not realise the amount of their initial investment.

INTEREST RATE RISK AND CREDIT RISK

Given that the Sub-Fund can invest in debt instruments and money market instruments, up to 100% of the Sub-Fund's assets may be exposed to interest rate and credit risk. When interest rates decline the market value of fixed-income securities tends to increase, and conversely. A rise in interest rates would have for consequences a depreciation of the Sub-Fund's investments. The credit risk refers to the risk that the issuer of fixed-income securities held by the Sub-fund may default on its obligation and the Sub-Fund will not recover its investment.

RISKS ASSOCIATED WITH INVESTMENT IN EMERGING MARKETS

Investments in emerging markets may be more volatile than investments made in mature markets. Some markets may have relatively unstable governments, economies based on a handful of companies and financial markets limited to trading just a small number of securities. Most emerging markets do not have a developed regulatory supervision system in place, and information published is less reliable than that of developed countries. There are greater risks of expropriation, nationalisation and political and economic instability in emerging markets than in developed markets.

RISK RELATED TO EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES

The Sub-Fund may use financial derivative instruments for efficient portfolio management purposes which entails the establishment of an overlay strategy that defines the objective, associated costs and benefits in addition to the risks of the said strategy. There are certain trade-offs which are to be considered when using financial derivative instruments for the purpose of efficient portfolio management in that derivative instruments provide means to manage risk and achieve financial objectives however they may convert a first-order risk (e.g. interest rate risk) into other second-order risks (e.g. counterparty risks). Inaccurate analysis of these risks and limitations may adversely affect the performance of the Sub-Fund. Furthermore certain potential conflicts of interest may arise in using efficient portfolio management techniques.

RISK RELATED TO DISCRETIONARY MANGEMENT

Discretionary management choices are based on expectations regarding the performance of certain securities. There is therefore a risk that the Sub-Fund may not be invested in the best-performing stocks at all times.

FOREIGN EXCHANGE RISK

Some eligible stocks may be quoted in a currency other than the EUR and the Sub-Fund may hold cash positions in any currency in which investments can be made. Investors are therefore reminded that up to 100% of the Sub-fund's assets may be exposed to foreign exchange risk.

LIQUIDITY RISK

The investments may have limited liquidity as the Sub-fund can invest part or all of its assets in small-cap companies. The number of securities bought or sold may be lower than the orders sent to the market, due to the low levels of supply and/or demand for these securities in the market.

RISKS OF LOSS OF CAPITAL

The Sub-Fund offers no guarantee or capital protection. The initial investment might not be recovered in full.

SUB-INVESTMENT GRADE BONDS RISK

Given that the Sub-Fund can invest up to 30% of its net assets in sub-investment grade bonds, whilst these are generally higher yielding bonds which tend to boost yield, there is an increased risk of default on repayment which may affect the capital value of the Sub-fund

RISK OF INVESTMENTS IN NON-RELATED COLLECTIVE INVESTMENT SCHEMES

The Sub-Fund may invest in other collective investment schemes. Investors must be aware that the applicable investment management fees may be in addition to fees paid by collective investment schemes to their sub-managers, resulting in double payment of such fees. In case of investment in another collective investment schemes, the total management fees of the Sub-Funds and of the other collective investment scheme will be at an annual rate of maximum 3.5% of the Sub-Fund's Net asset value at the end of each calendar month, before deduction or accrual of the performance fee. Investors should also be aware that if the Sub-Fund invests in other collective investment schemes which are also managed by the same Investment Manager of the Company, there will be no duplication of investment management fees and thus will be waived accordingly.

SUSTAINABILITY RISK – NO CONSIDERATION OF SUSTAINABILITY ADVERSE IMPACT

Investors should be aware of the fact that the Sub-Investment Manager did not have designed, at the time of launch of the Sub-Fund, the investment policy of the Sub-Fund taking into account sustainability risk nor sustainability factors in its investment decision making process nor they do consider the adverse impact of investment decisions on sustainability factors. Such sustainability risk may have a material negative impact on the financial return of the investment strategy of the Sub-Fund

The Sub-Investment Manager is aware about the importance to evaluate the aforesaid indicators and may be carry out, in accordance with this Offering Supplement, changes to its current investment policy in order to take into account such factors.

However, also taking into account the current investment strategy of the Sub-Fund, the Sub-Investment Manager may, from time to time, take into account adverse impacts of investment decisions on sustainability factors as part of both the comprehensive pre-investment due diligence carried out from time to time and the monitoring of existing investments.

Without prejudice to the above, one or more investments made by the Sub-Investment Manager may qualify as “sustainable investments”, within the meaning of the ESG Disclosure Regulation.
